

MANSTON AIRPORT (TR020002)

As a Manston airport supporter one thing I believe could help Manston as an airport is the traffic congestion on the M25. I recently came back from the West Midlands travelling back to Canterbury where I live and travelled along the Northern sector of the M25. The traffic was slow moving, at times almost coming to a stop. I would imagine the Southern sector serving Heathrow and Gatwick would be just as bad or even worse.

I believe Manston as an airport would help to alleviate congestion on the M25 but building houses on the Manston site would mean more people in Thanet wishing to travel abroad will have to go to Heathrow, Gatwick, Stanstead or Luton via the M25 adding more congestion.

Yours sincerely,
Kenneth Norrington.
