To whom it may concern,

I am very much in favour of seeing Manston airport reopened and planes fly in & out of it again as soon as possible. I live very close to the airport in Cliffsend and at no time while the airport was operational did it ever effect or bother us.

However, two of our three sons have had to move away from Thanet due to the lack of opportunities for them here. I doubt it will be very long until our third son moves away too as all we ever get from his brothers is how much better their lives are now they have found meaningful employment. Whilst it may be too late for them, it would be wonderful if a reopened Manston airport was able to provide our future school leavers with excellent employment prospects.

The alternative to the airport is another huge housing estate, full of thousands of people with no jobs to go to. That coupled with the thousands of additional cars clogging up the roads, no where near enough schools, doctors and police etc to cope with the increase of population.

Thanks and kind regards,

David Burgess
