Subject: Manston Airport DCO - examiner's 4th questions
Date: 22 June 2019 12:05:19

I write with regards to the 4th set of questions raised by the Examining Authority with regards to the application for a Development Consent Order submitted by Riveroak Strategic Partners for the former Manston Airport.

I would like to point out that due to the substantial amount of information requested by the ExA so close to the end of Examination (which is now a mere 12 working days away), it will be impossible for any interested parties to adequately respond to any further matters which may arise in the responses to these questions.

As it will not be possible to follow due process, surely the only option for the ExA is to refuse the application.

Yours sincerely,

Jon Fowler
