---

Dear Pins,

I am writing in regard to the potential 'Requirement 19c' Clause currently being discussed as an addition to the Manston Airport DCO Process.

The restrictions being discussed as part of the DCO are far too restrictive.

Most flights carried out by Low Cost Carriers (LCC) happen between the hours of 06:00 and 12 noon to get passengers to their destinations around mid afternoon.

If this restriction was to be placed into any successful DCO this would severely restrict any potential LCC operations from using Manston Airport.

A more appropriate restriction would be a ban on anything over 200 seats during the proposed time period as most LCCs use a max of 189 seats and would allow for KLM feeder services at the times they are required.

If you require the exact data i am referring to it is available from the openflights website.

Kind Regards

Kirrien Wilson
