---

Hi all

I would like to make these observations, regarding the reopening of Manston Airport Site.  
1/ The impact on, the of building of the houses on the Airport Site, will have on the Reservoirs, Lakes and Rivers, in the South East, we have already seen in the London area, where there is over population, rivers, that once, were teeming with life, have dried up, to leave just a muddy bog.

2/ The wild life that, building these houses, on this site, would destroy, the wild life that, us humans rely on, to pollenate our food that we eat, with the reopening of Manston Airport, we will keep the insects, that we so need, the mammals, grass verges, along side the runways, will be, a haven for them to flourish.

I make these observations, so you all can make the right decision, regarding Manston Airport.

Ref 20012674

Mr. Colin David Sutton
