Noise Mitigation Plan

This states that any aircraft which has a quota count of 4 or more cannot take-off or land at the airport between the hours of 0600 and 0700.

This is totally unacceptable. It would mean unscheduled and "late" can land at any time between 2300 and 0600. Unlimited late arrivals etc. as loud as QC 4 can land between 07.00 in the morning and 0600 the next morning, in reality we could end up with planes 24 hrs a day. Having experienced these late arrivals when the Airport was open previously in which the owners frequently had planes "Arriving Late" I cannot begin to imagine the impending nightmare.

If this is allowed the owners would have greater freedom than the previous airport had, also of course a very large number of planes is planned. As a resident who lives under the flightpath I find this outrageous.

I also note that RSP have no plans to report on "real" noise levels, the monitors will be 6.5km away and I can assure you that will in no way monitor the real noise experienced on my property which is very close to the runway.

Who would monitor these "late arrivals" etc. because previously complaints were handled by the airport and many many were not even acknowledged and it never improved the situation, it seemed to me that they ignored residents to a large extent and done whatever they wished, my great fear is that that attitude would continue but this time it would be on a much larger scale.

Why aren't Ramsgate Residents being afforded the same Noise Mitigation as London airports are offering ?

Management Accounts

RSP's management accounts have not been verified by anyone other than the directors of the Applicant

None of the accounts submitted by RSP to Companies House have been audited – I believe RSP claimed otherwise.

As normal RSP waited until the last possible day to submit accounts to Companies House, I believe this was to ensure that those accounts would not be published until after the second CA hearing (4th June), which in turn prevented ExA or anyone else to question RSP.

It appears that RSP are totally disregarding timelines set by the ExA and are now saying they will deal directly with the SoS.
