---

Sirs,

I would just like to add my voice to the many who are appalled at the prospect of reopening Manston airport.

I am 79 years of age and bought my house here a few years back. I looked forward to a peaceful and quiet end of life

Like many I brought money to the area: I bought a house, employed local contractors to refurbish it. I spend my income in the local shops and employ locals to maintain myself and home

It is totally unacceptable to change this with a noise and air polluting airport. A modern freight hub will bring few jobs and much negativity.

The cargo delivered will have to be redistributed all over the uk! How? By road! Has no one noticed the lack of infrastructure?

Jill Pulman
