Subject: TR020002 Manston DCO

Good morning Inspectors

My name is Harriet Steddy, I recorded a video for you with my friend Tim. I hope you remember me.

I have [REDACTED]. I live very near the school in Chatham Street.

I have found it very hard to understand a lot of what is going on with the DCO but I have read some of the things people have written in to you.

I think what the people who want to build the airport are saying is that the school will get protected from the noise.

I think they are saying that I will not have help where I live. I think they are also saying that there will be planes flying in at night. I have found this bit very confusing.

This is not fair to me, [REDACTED] and I am anxious and scared of noise and I have a [REDACTED] [REDACTED] as well as all of the other things I have.

Just because I am not at school any more, I am still a person and I still need to sleep and not live under pollution.

My life will be very difficult if I cannot sleep and I am scared that I will be ill all the time.

Please Inspectors make sure that people like me are not hurt by this examination.

Thank you Inspectors. [REDACTED]. I am scared of people being cross with me.

Thank you. Harriet.
