MANSTON AIRPORT DEVELOPMENT CONSENT ORDER
Urgent Submission
Submitted Tuesday, 9th July 2019

Yesterday there appeared on the PINS website 14 documents posted by RSP, running to over 500 pages.

It is now just over 24 hours from the close of the Examination.

I do not see how any soul can possibly read, digest and where necessary compose and write up responses to these very late submissions by the Applicant.
I note too that the Applicant will, post closure of the Examination period, be submitting directly to the SoST. Will such submissions be made available on the PINS website? Will Interested Parties be able to respond and challenge material submitted by the Applicant, post Examination? How will the interests of Openness and Transparency be maintained?

James Chappell
