Dear Manston Airport Case Team,
Thank you for informing me that the results relating to the Application for the Development Consent Order (DCO) have been postponed for a further 4 months. I have read through the information and note that the Secretary of State awaits further comments from those authorities, companies and the applicant, as highlighted in the attached notice..

I am a private individual who strongly supports the reopening of the airport. I trust that the Secretary of State, once he and his department have received the additional comments required, will find that all the necessary reassurances will have been met and that the DCO will be granted to the benefit, not only of those living and employed in the Manston area, but more widely in Thanet and the Eastern Region of Kent.

With Brexit behind us and the United Kingdom being in a position to open up trade with the World at large, the rapid turn-around cargo facilities are bound to be a major National Asset.

(From a personal point of view - I would love to be able to fly from Cape Town to Manston via Amsterdam - I am pretty sure KLM would come back once all was running smoothly. Who knows, perhaps Emerates Airlines could be induced to introduce a cosy corner for passengers on their well-established international cargo flights!)

Wishing the Applicant and all those who support the DCO, a successful outcome,
Yours Sincerely
Theresa Jill Iggulden Stevens. ,
