Dear Sir/Madam,

I am writing to you as a very interested party regarding Manston Airport. I am aware that the DCO procedure has very strict rules and time scales. So I was shocked to find that you accepted these exceptionally late submissions from this rather strange company. I have read their submissions and although I am no expert, find they are just repeating and puffing up previous comments.

I would like to know why they were allowed to make submissions so late in the day, or was this option open to all ?

Please would you take note that I feel this was very unfair not only to RSP but to all the residents of Thanet that have been supporting the reopening of Manston Airport.
