Fao Manston Airport Case Team

I am writing to show my support for the re opening of Manston Airport as a Cargo hub by RiverOak.

Thanet needs jobs and this is a golden opportunity to provide the local residents with hundreds of jobs. There are 17,000 houses currently and due to be built in Thanet over the next few years but there are no decent employment opportunities. RiverOak have spent millions already on Manston Airport so they are completely committed to getting the airport back on its feet.

In my opinion the DCO should be granted immediately. So much time has already been wasted. Thanet needs and wants Manston Airport open as soon as possible.
