---

Thanet needs an airport (which has been here for a hundred years anyway) like humans need a blood supply. It is vital in order to bring business and investment to a very deprived area. Our young people need jobs. We are desperate to see Manston reopened and desperately depressed that this matter still drags on and on and on year after year after year.

Why does this still need our support if it is to happen? **We've spoken in favour of an airport for as long as we can remember.** Why would we have changed our minds? Why do we keep having to repeat ourselves? People who object are doing so on the basis of unwanted noise, but modern aircraft do not emanate the kind of noise as was once the case. Besides, an airport was here long long long before they purchased their homes.

What are we still waiting for? Get on with it and let the owners, RSP, get on with what they have spent years and years waiting to do - bring a modern, ecologically-friendly airport up and running. Britain's future depends on trade and trade can only be done by air freight these days. Covid has only compounded this need.

**Bring Back Manston Airport NOW.**

Anne and Graeme Ammundsen
