---

Please put your weight behind getting Manston Airport open I spent many hours at the meetings with the Planning Inspectors we need to get this Airport open as soon as possible not just for Thanet and Kent but for the hole of the Country it was used for emergency and British Airwars training in the past and could be helping training jobs for the future, The Airport which has the second longest runway next to Heathrow could save alot of heart ache building another runway at Heathrow or Garwick we need the work as much as the rest of the Country RSP are waitng on you so please do your best to get the Airport back to its former glory.

Mr Busby age 86
