I would like to say that I am totally in support of Manston airport being used by River Oak for the purpose of aviation. It has always been an airport in my lifetime and has served us well during uncertain times in the war. Many local people have benefited either directly or indirectly from there being facilities on the land. It has generated much needed money to the local economy with things like the air shows and visits from red arrows and Concorde. It is a community facility and I am sure that links the community would continue. The jobs will bring a much needed lifeline to the area of Thanet.
