Dear sirs

I am writing to give my support for the reopening of manston airport as a world leading carbon neutral cargo hub. Thanet has been neglected for many years now with high unemployment and poor prospects, I truly believe that this is the way forward for us to make an enormous contribution to cargo carried by air. This would also help with employment in the area and further afield. The links by road and rail are all there waiting and with a world leading cargo hub in the middle what more could you need. I also hope that this will encourage greater investment in thanet and surrounding area's by the big companies that use air freight this again bringing in more employment. And with RSP at the helm with their huge investment plans what have we got to lose.

Regards
Nigel Amos
