Both my Husband and myself feel that the benefit to Thanet and the whole of South East would be enormous with the opening of Cargo and Passenger flights. Thanet is a deprived area we need jobs for the younger generation. The airport would provide opportunities for graduates from the Universities. There would be apprentice opportunities also. Knock on effect being Jobs will be created around and outside of the airport.

The need for Cargo is a must. The more trade deals around the world the more we need Cargo transport planes.

Manston has been an airport for one hundred years and should continue into the future. As both of us are in twilight years we may not be here to witness the first plane take off but we sincerely hope this will happen so that this corner of England can thrive. The delay has been so frustrating.

Margaret and Walter Cook
