Dear Sir,

I would encourage you to proceed with the Upgrade of Manston Airport as a "working airport". This part of the UK is desperate for investment, being one ,if not , the worst area for "unemployment" in the UK....

Opening Manston would solve the area's unemployment . Numerous Industries would open which would need 100's if not 1000's of workers.

With the UK being out of the E.U. and Schipol being unable to take any increase in freight, this is the perfect opportunity for Manston to step in . It's location is A1 and it has one of the longest runways in Europe. The road structure is excellent and Entry and Exit is first class.

With the passenger numbers increasing,it is becoming increasingly difficult for existing Airports to cope. Even more reason to get this Airport "up and running". If it took 10% of the Gatwick, Heathrow, overflow of passengers ,this would make such a difference to these two airports,because at the moment it's a nightmare.

I trust you can see the imperative need for this project to go forward.

Yours faithfully (fed up with Gatwick),
Mr R Wells-Colyer.
