Subject: Don't open Manston Airport
Date: 27 June 2021 05:50:36

This will be bad for residents on the flight path and generally bad for the environment.
When the airport used to be open teachers had to stop talking during lessons as they could not be heard over the engine noise; people were woken from their sleep.
And this was when there were not many flights.
To have so many flights planned in one day will caused untold issues for many people.
Old planes with old engines will be used and at a time when the government, the world , is trying to clean up its act it seems ridiculous to open Manston Airport.
Please don't do it.

Lisa Moulton
