Subject: Re: DFT/Planning Inspectorate - Manston Airport (TR020002) - corporate manslaughter/fraud

Hi Natasha

Thanks for this letter on further reviews of Manston airport - closed since 2014.

It's on the drinking water aquifer for the East Kent population of c.150k people - hence it being closed.

And the pollution monitors were faked by TDC/KCC council to give favourable readings to Infratil and subsequent owners - obviously jeopardising public health.

The collapse of Manston with KCC support for EUJet resulted in the largest ever stranded/repatriation of UK travellers by DFT.

The owners of Riveroak have repeatedly featured in Private Eye Rotten Boroughs as have TDC/KCC.

It's a junk project and rife with corporate manslaughter and fraud issues and the cost of reissuing /refuting the various claims.

Please advise.

Tim
