---

I totally support the re-opening of Manston Airport.

My reasons are the deprivation in this part of Kent and the need for all kinds of jobs for the whole community. There is also the need for extra runway space in the South East. Now that we have left the EU it would be advantageous to import goods directly into the UK using Manston Airport.

My family and I have lived in Ramsgate directly under the flight path for the past 30 years and during that time have had absolutely no problems when the airport was operational.

Please give this area a brighter future.

Regards  
Marion Abel
