Subject: For the attention of the Manston Airport Case Team
Date: 06 July 2021 22:40:48

This is to give my reasons why I think Manston Airport should be allowed to re-open. I am a resident of Manston and live close to the airport. I look forward to being able to walk to the airport in the future, without the need for any driving. As the numbers of houses are increasing in the area, this means even more people will be able to utilise it.

Thanet has a high rate of employment and the re-opening of the Airport will create much needed jobs in the area for the residents of Thanet, as well as training opportunities.

I think that due to Brexit there is a greater need for Manston as an airport, especially as a cargo hub.

I think it is an exciting opportunity for Thanet, especially as there are no scheduled night flights and the fact that the planes are due to be the latest quiet planes and the airport is going to be rebuilt as a green airport.

I really hope the opportunity for Manston to be reinstated as an airport is not missed.

Kind regards
Nicky Galer
