Sir

I see once again a handful of people are trying to stop the redevelopment of our airfield the majority of people who live in Thanet are all in favour of the airport and all the opportunity that is going to come from it

Thanet is an area of high unemployment and in need of all that will benefit the growth and development of the area

I would like to point out that those who are currently complaining about the future of Manston are those who have brought homes to the area knowing that that the airport was there

We the majority are sick and tired of being walked over by those who move into an area and want to change it to fit their lifestyle

We have had enough councils members who have for their reasons made the reopening a long and costly process

Thank you for taking the time to read my input

Regards

Andrew Stock

Thanet resident
