---

I'm writing to state that I fully support the development of Manston airport as a cargo hub.

There is every chance the airport will provide employment in Thanet and this part of Kent. Unemployment in this area is very high compared with most of the country.

It is evident that in this post Brexit and Covid period commerce continues to grow and much is transported by air. This country cannot afford to be left behind and losing Manston for aviation would not help our recovery at all.

Best regards

Helen Tremble.
