Subject: Manston airport impacting new development at Minster
Date: 09 July 2021 12:27:54

With respect to proposal to re-open Manston airport.

I would like to point out the recent developments in the Minster development plan which would lead to more houses being built to the north of the village, and therefore near the proposed runway. I think this increase in the number of people who would be adversely impacted by the re-opening of the airport should be taken into consideration.
