For the attention of the Manston Airport Case Team.

Dear Sirs,

An important advantage of direct freight to Manston Airport :
I frequently have to wait for key freight and e-commerce components and instruments to be delivered from overseas, and thus actively track their progress around the globe.

It is common for them to say come from the western seaboard of the USA to the UK quicker than they are then trucked down from the Midlands to Thanet.

The return of Direct freight and e-commerce into Manston Airport (MSE, as still given on the transport companies' documentation) is urgently needed.

Kind regards,

Dr. Beau Webber.
