Subject: No need for this airport
Date: 08 November 2021 18:31:19

There is no need for the proposed re-opening of Manston airport.

Stansted, Gatwick., Southend and Heathrow can already cater for the freight night flights that have been suggested.

At a time when climate change and carbon emissions are world issues the prospect of this is gross and barely believable.

This has purely been put forward as a money making exercise for those involved. The impact upon the local community and those under the flight path/s should not be overlooked.
