Good morning,

I find it frankly unbelievable that I am being invited to make another, further, further submission regarding the DCO on the former Manston airport and its proposed Cargo hub. I don't know what more I can possibly add.

How much longer can this continue, report after report, including the recommendation by your own Planning inspectorate NOT to grant this DCO has stated there is NO NEED and it is not viable, even less so now. The Ove Arup report commissioned by yourself which has just been published has also said there is NO NEED. Just how many times must it be said? Ramsgate is a beautiful town and does not deserve to be blighted by an unneeded, unviable and unwanted Cargo hub. Its residents, including my family and friends, deserve so much better.

Reference COP26

Surely we should all be taking heed and doing absolutely everything in our power to reduce pollution and ensure there is still a planet for future generations. A NEW Cargo hub will certainly not help the UK Government achieve its target and would make a mockery of its assurances. RSP claim it (the airport) will be carbon neutral, what a fantastic claim, however, ridiculously, this doesn't include the Planes, Trucks for goods etc etc using it, so, not carbon neutral at all then?

Barbara Warner  
Ramsgate resident.
