my ref: MAN-020

Dear Sirs

Manston Airport - (TRO 20002)

I am writing with regard to your letter dated 21st October, 2021 concerning the consent order for upgrade and re-opening of Manston Airport.

I continue with my support for this development believing it to provide an opportunity to bring trade and businesses to this deprived area of the country.

I contend that any emissions will be offset by the need to provide a round route to the continent, by helping to deliver a ~~more~~ stable entry and avoiding the problems frequently caused by French blockades of their ports.

Regarding Natural England representations on air quality, I consider levels could rise more if the site were used for housing and other industrial type uses. The volume of traffic would be considerable and there is no viable public transport to neighbouring areas.

I do not have access to a computer, therefore, this can only deal with limited points. I have lived in Ramsgate my whole life and do not believe the contentions on disruption to everyday living.

yours faithfully
