I am so upset this horror has been raised again. To put a polluting , poisoning airport here in such a beautiful tourist area so near a wonderful town like Ramsgate and surrounding villages, is awful. Right on the far south east of the U.K. planes roaring in every 8 minutes night and day. Having to stop lessons and conversations in the midst of Ramsgate . Traffic will have to take cargo on, we are one and a half hours, at least from London, roads unable to cope now, imagine the hold ups. There is more than enough freight capacity at better situated airports. Please quash this in agreement with all reports saying this is not viable at any level.
