May we please have Manston open again as an airport.

It makes no sense whatsoever for an airport with one of the longest runways in the country to stand idle for so long. Concord landed here. Pilots for the Dreamliner trained here.

It can be used again but in a different way. With all the restrictions in place that have been agreed I see no reason to keep the airport closed. Grasp the nettle. Provide work for people in an area desperate for jobs and keep Manston in use. Please!

Jeffery Frampton.
