Official

Dear Phoebe

Thank you for your email and consulting the London Borough of Richmond upon Thames on the adequacy of the consultation in relation to Gatwick Airport's Northern Runway.

I understand that your letter is only seeking views on the adequacy of consultation carried out, rather than the merits of the application itself.

We have no specific views or issues to be raised in response to your letter. However, as Richmond Council opposes airport expansion in light of the climate emergency, we request to be continued to be informed. If a decision is made by the Inspectorate to accept the application, Richmond Council wishes to register as an Interested Party, and we may make representations at the next stage in the process.

Kind regards

Andrea Kitzberger-Smith MRTPI
