

Communities Against Gatwick Noise Emissions (CAGNE)
Gatwick Airport Northern Runway project DCO application
PINS Reference Number: TR020005

COVER DOCUMENT ON BEHALF OF CAGNE
DEADLINE 2 (26 March 2024)

INTRODUCTION

1. This short document addresses matters flagged in CAGNE’s Deadline 1 (12 March 2024) submissions and requested by the Examining Authority after the ISHs. At Deadline 3, CAGNE will make further substantive submissions and will respond to the Deadline 1 submissions of other parties.

POST-HEARING SUBMISSION (ISH 5 NOISE)

2. Attached as Appendix 1 is a note produced by acoustic consultants, Suono, setting out the response on behalf of CAGNE following on from Issue Specific Hearing 5 – aviation noise and addressing Action Point 5: “CAGNE to set out the detail of what it feels is missing from the noise assessment, as stated”. To avoid the need to cross-reference documents, this note picks up and repeats some text from CAGNE’s Deadline 1 noise submissions [REP 1-138], so that the Note provides a full response to the Examining Authority’s question.

PROPOSED REQUIREMENTS

3. CAGNE has reviewed the information provided by the Applicant as regards the proposed Requirements in the draft DCO [REP 1-004]. Appendix 2 provides CAGNE’s suggested drafting for specific requirements.
