Land Rights Tracker

1. Introduction

At Item 11 of Annex F to the Rule 6 Letter [PD-009], the Examining Authority has requested the submission of a Land Rights Tracker to capture and manipulate the data currently within the 'Justification Table and Status of Engagement with Landowners' and 'Status of Engagement with Statutory Undertakers', which form Appendix A and Appendix B to the Statement of Reasons [AS-008] in a simple, useable table. The Examining Authority provided GAL (the Applicant) with an example of a Land Rights Tracker and the content required to form a comprehensive account of the status of negotiations with landowners, Crown bodies and statutory undertakers.

GAL has adopted the example provided by the Examining Authority and made minor amendments to the layout, headings and restricted inputs in certain columns to provide further clarity and functionality making the data more accessible.

Section 3 of the introduction to this Land Rights Tracker explains the purpose and content of each of the columns of this tracker. The row that is titled "Notes to the ExA" explains changes made from the example provided by the Examining Authority.

2. Description of Rights Requested

The Land Plans [AS-015] show land and rights over which compulsory acquisition and temporary possession powers are sought and the powers being sought are also listed in the BoR [AS-010 and AS-012].

There are no plots over which the Applicant is seeking temporary possession powers only and the controls, including time limits, on these powers are set out in Article 37 of the Draft DCO, therefore no separate column within the tracker has been included.

On the Land Plans the plots are coloured to show the type of power that is required over each plot of land to deliver the Project. These same colours have been used to signify the rights requested within this tracker:

Pink power to compulsorily acquire all freehold and leasehold interests and possess temporarily power to compulsorily acquire rights by the creation of new rights or the imposition of reaction. power to compulsorily acquire rights by the creation of new rights or the imposition of restrictive covenants and possess temporarily

Grey no powers of compulsory acquisition or temporary possession are sought

This tracker identifies the powers sought over plots of land by reference to the colours shown on the Land Plans, although Grey plots have not been included in this tracker as no powers of compulsory acquisition or temporary possession are sought in the Draft DCO.

Examination Authority	ExA	
Heads of Terms	HoTs	
Landowner		the individual, private or public company that holds the relevant interests in the Order limits.
Plot Numbers		correspond to the numbers shown on the Land Plans and listed in the Book of Reference. Each parcel of land has its own plot number. This column identifies which of the plots the landowner owns
Interested Party	IP	
Protective Provisions	PP	
Reason for acquisition of land or rights		sets out the justification for the powers that are being sought over the relevant plots by reference to the works and activities that will be carried out on that plot.
Reference Number	Ref No.	
Works Numbers		correspond to the authorised development as set out and numbered in Schedule 1 of the draft DCO and shown on the Works Plans. The table shows which work (by reference to the work number) will be carried out over the relevant plot and is therefore the reason for the acquisition or temporary use of that plot.

Deadline 3 (19 April 2024) update: Both sides are currently engaged in discussions and are working towards agreeing Protective Provisions. The Applicant is confident that agreement will be reached by both sides prior to the end of Examination. The Applicant considers that the land and rights can be acquired can be considered without detriment to BPA's undertaking. Deadline 5 (6th June 2024) update: Discussions are ongoing between the Applicant and BPA's respective instructed solicitors on a side agreement to address BPA's concerns. The latest draft was neceived from BPA's acticutes and 28 Mey 2024 with very fee proints remaining outstanding. The primary outstanding point was 50 Mey 2024 and compromise wording was offered to BPA's solicitors on 30 Mey 2024, to which a response is awaited. The main outstanding issue is ensuring that BPA's consent is not required before GAL can carry out works to areas within the airport that are far away from BPA's actual assets and which will not have an adverse impact on those assets. BPA norminally has rights over wide expanses of the airport as part of access rights conferred in its pipeline and terminal leases. The Applicant visher ensure that the earth of these rights will not fluster the efficient and timely construction of the Project. The Applicant has offered to agree that no works will be carried out for affecting BPA's actual assets without the approval.
