[REDACTED]

Hi,

The Government is implementing Clean Air policies and is supporting anti-motorist policies to clean the air.

A further Runway will significantly increase the number of flights and therefore increase air pollution from Aircraft in the Crawley area.

How will this plan fit in with the UN Agendas 2030 and 2050?

Has this been considered.

On the other hand it might create a few jobs during construction although most jobs are likely to be temporary.

Regards,

Rick Ketley
