Subject: Re: TR020005 – Gatwick Airport Northern Runway

TR 20044136

Dear Sirs

I do not know how many others are concerned at the extra noise that will result from all the extra flights. I continue to be worried especially during the summer months when we are out in the garden and lots of extra flights will come over us.

I live at [REDACTED] and it is already noisy at this time of year. Are there rules about how low flights can take off and how often? They seem to vary a lot - some are very low.

Please bear my concerns in mind when you are considering this application

Yours sincerely

Susan Cash
