**Subject:** Re: TR020005 – Gatwick Airport Northern Runway

As an interested party under reference 20041600, I must state that the application by Gatwick Airport falls extremely short of considering the residents situation around the area of the airport. Consideration is not applicable to the environment, especially when the area is already suffering from high pollution, excessive noise from traffic in and out of the airport. The infrastructure is not designed for additional traffic.

There is also a lack of facilities in a small town like Horley and the area cannot cope with the aforementioned problems.

I disagree with the application made by the airport and would ask that it is rejected by the authorities.

Yours faithfully

Alan Clift
