Subject: New runway

I have tried to have my say on the website and it is unavailable! Please can I respectfully ask that my views are considered.

We are deeply opposed to the additional runway proposals for many reason, such as disproportionate effect on carbon footprint, overcrowding of skies in the region and adverse effect on quality of life in a countryside area, where all that we have worked for in life is in our home, that could now be devalued and no pleasure in residing in.

We suffer unacceptable levels of aircraft noise over our quiet village as it is, causing sleep deprivation and anxiety - please - no more!

Thanks
Adrian Roberts
