

Aircraft Noise – I fully support the 0.5 decibel reduction every year in the noise envelope, as proposed by PINS (proposed at ISH9). If Gatwick disagrees, then they obviously don't believe that aircraft will get quieter as detailed in Environmental Statement Addendum Updated Central Case Aircraft Fleet Report Book 5 May 2024. There really should be a night time ban on flights and also a variation on the flight paths so that there are defined and communicated noise breaks so that we can arrange BBQs etc and be able to hear each other. It is not fair that loud noise is imposed upon us.

Insulation – (ISH9) There should be full and meaningful compensation for all residents impacted by both a new runway and the increase in traffic on the main runway, including outside of the current contour of consideration.

Air Quality – (ISH9) Gatwick offers nothing more than to 'monitor' air quality. This is not acceptable; air quality standards must be legally binding in the DCO. Gatwick must not be allowed to have it in the local authority agreement, known as a 106. Air quality standards are rising, so the DCO should have stringent mandatory targets that must be met by the airport with 2 runways.
