

The use of the second runway is an essential for gatwick. It will decrease delays both airborne and on the ground, thereby minimizing pollution in the area. It will increase jobs in the local community which is a major plus, providing an improved way of life for the surrounding areas. There are no negatives to allowing this expansion and improvement to the countries infrastructure. If we don't do it, other countries will and we will lose jobs associated just to keep a vocal minority happy.
