

I do not support any further expansion of Gatwick or Second Runway. We need Regional Runways and Airports with Regional Air Traffic and this will lead to Regional Jobs, Housing and better Air Quality and less Noise for ALL. Greedy Gatwick should not be allowed any further expansion. I do not accept any alternative or any further growth at Gatwick. Gatwick does not cope well with any of its by products be that Odours and fuel in the air, Litter and destruction of wildlife and trees, takes them down but does not replant. Its it displacing Wildlife and birds for miles around the airport. It is causing Water displacement, be that surface water and flooding but also the local water companies can not provide the level of water and sewerage provision needed to deal with the amount of people they bring to site.

The waste they make has to be moved by road, and they make too much. The Community Fund that Gatwick Management has in place is nothing more than a media opportunity and only spends a little on promotional opportunities or to quite the community when it needs too.

But the BIGGEST problem is too many Airports in the South East in one corner of the country with not enough Roads to cope or an Airspace that is big enough. The whole Air industry should go back to Regional Airports, for instances Re Open Doncaster Airport. Not everybody wants to work in the air industry in the South East.

So to recap. I do Not support Gatwick expansion in any form. No New Runway. Gatwick Management are Greedy. Its not Policy, (ISH1). They need to reduce Carbon (ISH9) not increase it. There is too much Aircraft noise, already a lot if not nearly all flights on Route 4 flying out of the Legal NPR. No Night flights. The Airport makes too much traffic, waste, sewage and uses too much water locally. We are in an area of Outstanding Beauty which is being blighted by Gatwick. The Air Quality is being comprised with Odour's in the air. Goodness knows what else we don't know about, which I guess the doctors or hospital's will see soon in the lung departments. and of course the lack of people to work there, and lack of local housing and schools etc. They don't even pay the workers well, bringing in cheap labour who find it difficult to find housing locally. So Gatwick we say No to any Expansion or Any New Runway.
