Subject: Gatwick's Airport New Runway Planning Application

I do not understand the forms or processes but I wish to register my objection to any expansion of Gatwick.

I live in [REDACTED] and the aircraft noise is already very intrusive. Coldharbour is an AONB but is blighted by aircraft noise.

The roads around Gatwick are not adequate and there is already insufficient housing to accommodate local people.

I cannot think of a single good reason to expand further other than lining the pockets of those involved, largely from overseas. It goes against environmental concerns and is completely inappropriate.

I hope my opposition is able to be registered.

Deborah Chapman

I'm not sure if this is the correct area to raise this but I object to the proposed runway development. I live in an AONB in the Surrey Hills. The additional noise and air disturbance/pollution has not been properly considered. There is already insufficient housing in the area. The aircraft do not appear to be getting quieter and the disruption is increasing already without the additional runway
