Interested Party ref.20044949

Dear Sir/Madam,

Thank you for your email and attachments regarding application for development of a northern runway at Gatwick.

I still strongly object to any such runway being constructed due to my previous reasoning, main points being:

Noise pollution

Air pollution (Tonbridge being situated in a dell air pollution stays, does not disburse easily)

Flights starting earlier and finishing later if there is more capacity

Traffic congestion

Environmental costs

Please do let me know if I have replied correctly and in the right way so my objections are recorded.

Kind regards

Claire Orme
