Subject: Proposed extension to, and more intensive use/traffic at Gatwick Airport
Date: 14 January 2025 15:01:42

[REDACTED]
Sirs,

Interested Party Reference 20046203

As a resident of [REDACTED] in a relatively close location to Gatwick I object most strongly to the proposed extension and therefore greater and more intensive use of this airport.

If carried out, the proposals will result in greater noise, greater number of vehicles and most importantly, worsening of air quality to a vast number of residents and particularly children and those with poor health and breathing problems --all for the benefit of a few travellers and, in my view, greedy airport owner . This is simply NOT ACCEPTABLE.

Whoever might give consent to the proposal will have on their conscience the probable worsening health of children and those in poor health -all to make money!

John C Isherwood
