**Interested Party Reference number: 20044002**

We appreciate that this representation is late in submission, however, in our review of your published documentation, we are unable to establish that **Active Travel England** have been consulted on this proposed development.

No doubt you are aware that since 1st June 2023, Active Travel England (ATE) has officially been a statutory consultee on all planning applications for developments equal to or exceeding:

- more than 7,500 square metres in size
- an area of at least five hectares

We did query this in our written representation of 11 March 2024.

Kind Regards,  
Roger Troughton
