Rt Hon Heidi Alexander MP,

All airport expansion conflicts with our legal and moral obligation to tackle climate change.

There are very many other reasons why Gatwick should not be allowed to expand - including the fanciful claims and downright lies the airport has made during it's quest to blag another strip - building a new runway near a taxiway is not 'making best use' it is building a new runway, for which Gatwick has no mandate - but none come close to the rapidly accelerating climate emergency.

Not in my name; protect our children from this avaricious, amoral business.

Thank you

Stephen Haysom
