

Dear Sirs

Further to my email yesterday (below), this is the section 56 representation by Network Rail Infrastructure Limited ("Network Rail") to the proposed York Potash Harbour Facilities Order. I'd be grateful if it could be placed before the Examining Authority for consideration.

Network Rail owns and operates Great Britain's railway network and has statutory and regulatory obligations in respect of it. Network Rail is a statutory undertaker in respect of its railway undertaking.

Network Rail is also an affected land owner, its land and rights are listed within the Book of Reference and the Order provides powers to compulsorily acquire Network Rail land or use it temporarily. Network Rail **objects** to any proposed compulsory acquisition of its land or any rights in, over or under its land. It is understood that the project interfaces with the railway in two places and that it will be necessary for the promoter to enter into the required asset protection agreements for those locations. It is also likely that any rights required over Network Rail land will require a grant of easement where appropriate and there may be other legal agreements required to protect the network.

There are standard protective provisions for the benefit of Network Rail which are well precedented in TWA Orders and now in DCOs. Prior to submission of the application, Network Rail was in contact with the promoter regarding the appropriate form that these provisions should take and is pleased to see that these have been incorporated within the draft Order. Network Rail would like to highlight to the Examining Authority the absolute need for these protective provisions to remain included in a DCO where Network Rail's operational infrastructure is affected by the proposal.

Regards
Natalie

Importance: High

I have just received an undeliverable message to my email below and realised I had an old email address for this project.

Please see my email below,

Regards

Dear Sirs,

We appreciate that the date for s.56 representations on the above scheme has passed.

However, Network Rail's land and interests are affected by the scheme and as such is an interested party. I'd be grateful if you could confirm that the Examining Authority would accept a late representation from Network Rail.

Regards
Natalie
