Subject: Registration for project Tilbury2 with the Planning Inspectorate

Planning Act 2008: Receipt of Representations

Thank you for submitting your representation on the application for development consent by Port of Tilbury London Limited for Tilbury2.

Your registration identification number is 20010082.

The next step is that Port of Tilbury London Limited must certify to the Secretary of State it has complied with its notification obligations. After this the Secretary of State will appoint the Examining Inspector(s) responsible for examining the application ('the Examining Authority'). The Examining Authority will then carry out an initial assessment of the principal issues arising on the application by 29 January 2018, which is 21 days after the last day for submitting representations.

Once that initial assessment of issues has been done we will write to you again. That letter will provide the name(s) of the Examining Inspector(s) appointed to be the Examining Authority and confirm (where relevant) your status as an interested party, unless exceptionally your representation has failed to comply with mandatory legal requirements. In the event that you are given Interested Party status, I can assure you that your representation will be considered by the Examining Authority. All Interested Parties will also be invited to attend the Preliminary Meeting and will have an opportunity to make representations about the procedure for the examination.

Please also note that the representations received will be published on the project page of the Planning Inspectorate's website as soon as practicable after the applicant has certified that it has complied with its notification obligations.

If you did not make this registration then please ignore or delete this email or call the Planning Inspectorate helpline on 0303 444 5000 for more information.

Yours sincerely

Dr Mark G. Telfer

Your representation:

I would like to be kept informed of the progress of the Examination and to be notified of the final Decision by the Secretary of State.

My particular interest is to see that the evidence from invertebrate survey work at Tilbury2 is fully, accurately and appropriately considered by the Examination, and that the decision reflects the importance of Tilbury2 for invertebrates.
