Sirs

I am agent for The Crown Estate's ownership of the tidal River Thames. Please find attached information in the public domain which addresses your question 1.14.5. I have provided the last 5 years published data (this has been publically available on our website). The import totals have increased during the period, due mainly to changes in market demand. The only new wharf that has been developed in the reporting time period is Cemex at Dagenham. 2017 statistics have not been published yet – they will be available within a month.

Peter Riches
