Dear Sir/Madam,

Cadent had asked for a slot at the Compulsory Acquisition Hearing on the 27th and the ISH on the 28th. The main issue is that we have not yet had confirmation that PoTLL will be able to grant an easement to Cadent where their apparatus has to be diverted as a result of the DCO outside the Order Lands and no provision has otherwise been made for land rights for such a diversion. The parties are expecting that this can be resolved because PoTLL own land adjoining the order boundary. Unfortunately the Promoter has not addressed this to date, despite our requests that it was resolved from March onwards.

It is now getting the promoters attention however, although we are not quite there yet. As such we want to let you know that Cadent will not now attend the CA hearing on the 27th in order that you are not expecting attendance tomorrow. We are sorry for the short notice, although we would lay this at the Promoters door.

We would still like to reserve the right to attend on the 28th June hearing. We are hoping that the Promoter will provide the necessary certainty to resolve the issue between the parties tomorrow and we will revert to you then.

Kind regards

Abigail Walters
